

You're Invited to a Healthcare Professional CE Group Viewing Event

Very Preterm Infant Nutrition: Parenteral vs Enteral

Neonatal nutrition expert, **Sarah N. Taylor, MD, MSCR**, underscores the importance of supplementing very preterm infants with nutrients that parenteral and enteral nutrition may not adequately provide. Dr. Taylor reviews current evidence about specific micronutrient recommendations and potential doses for supplementation. She reviews the role of human milk in decreasing the potential for common complications of prematurity, and shares tools for supporting maternal milk expression.

Target Audience

This education was developed to support physicians, nurses, registered dietitians, and other healthcare professionals who have an interest in newborns, infants, and toddlers.

Learning Objectives

At the conclusion of this activity, participants should be better able to:

- Recognize essential nutrients that may require supplementation for very preterm infants
- Apply new guidelines and evidence-based recommendations around the initiation and advancement of parenteral and enteral nutrition
- Utilize published data on the clinical outcomes associated with human milk, donor milk, and premature formulas in clinical decision-making for enteral feedings.

JOINTLY ACCREDITED PROVIDER*
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Annenberg Center for Health Sciences at Eisenhower (Annenberg Center) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The Annenberg Center designates this enduring material for a maximum of 0.5 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Annenberg Center designates this enduring material for a maximum of 0.5 American Nurses Credentialing Center (ANCC) contact hour.

Provider is approved by the California Board of Registered Nursing, Provider #13664, for 0.5 contact hour. *To receive credit for education contact hours outside of the state of California, please check with your state board of registered nursing for reciprocity.*

Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 0.5 continuing professional education unit (CPEU) for completion of this program/material.

Registered Dietitians and Dietetic Technicians are to select activity type 102 on Professional Development Portfolio (PDP) activity logs.

ANNENBERG CENTER FOR HEALTH SCIENCES
AT EISENHOWER
Imparting knowledge. Improving patient care.

This activity is supported by an educational grant from **Mead Johnson Nutrition**.
